Paper Binder Folder	Better	Limited	\$	Better	N	Y	N	Y	Limited	Y	N

KEY TO SCORES: Limited (Passes Standard) · Good (Better than "Limited") · Better (Better than "Good") · Best (Best in Class)

NOTATIONS:

1. Vinyl Binder includes Easel Binders and Entrapment Binders.
2. Screen print in 1 to 4 colors; most cost effective at 3 colors and below. Above 3 colors, consider a product that allows digital print.
3. A die is required for foil stamping. Consider a gold or silver print alternative.
4. Least expensive option, especially at low quantities. Minimum quantity 25 for Kraft Binders, 250 for Paper Binder Folders.
5. Printing methodology, pockets and other features may impact recyclability. Features are limited on the Kraft Binder to retain recyclability.
6. "Unlimited" is any size up to equipment max. "Limited" requires equipment tools which determine available sizes; most common sizes available.
7. Digital print on white vinyl: interior will be white; outside can be flood printed to match any PMS color and include any print or picture.
8. Linen looks similar to paper but feels softer and warmer to the touch — our highest quality book cover material.
9. Litho Wrap is our most customizable, high-end binder: fully customizable color, cover material and shape.
10. A litho wrap binder can be designed with a plush, soft-touch matte finish to emulate an executive padding feel.
